

(Under the supervision of the Ministry of Education and Higher Education, Qatar)

## **Community Partnership Policy**

A school–community partnership is an educational reform effort where school expands its traditional educational mission to include health and social services for children and families and to involve the broader community. Pearl School has the following community partnership policy:

- Local community activities like visit to libraries, field trips, medical camps, museums, other institutes, etc. are conducted on regular basis.
- School staff is highly encouraged to communicate and engage in community institutions like science forums, social institutes, medical associations, etc. so as to benefit the staff as well as school students.
- Parents are involved in major school events like parent-student activities, Annual day, framing of Vision & Mission and parents are regularly motivated to volunteer for school related activities with their talents.
- There is constant lookout for community involvement that function under the aegis of the Indian Embassy through educational institutes, medical associations etc that enhance the skills of the staff as well as students to achieve the school Vision and Mission.
- School encourages inter-school communication by visiting other schools and inviting staff of other schools for exchange of ideas and welcome new learning.
- School is committed to mitigate impact on environment by working with all stakeholders to promote & implement responsible environmental practices & continuous improvement.
